

SECURITY OF COMMUNICATION AND INFORMATION, COLLECTION AND USE OF INFORMATION, PERSONAL DATA PROTECTION

Provisions contained in this document constitute policy for communications security of the PS: Services end users, collection and use of information on end users of PS: Services and personal data protection of PS: Services end users.

By clicking wrap of this document you confirm, that you were informed of and accept the following provisions and recommendations, and that you are fully aware of consequences of your actions / inactions according to or in conflict with the provisions and recommendations detailed in this document.

For the purposes of this document:

"Software" means software program distributed, published or otherwise made available by PS: including, but not limited to encryption software, downloadable/installable accessed by means of a browser or other online communication method. Software includes accompanying manual(s), files and electronic and/or on-line materials or documentation, and any and all copies of such software and its materials.

"Services" means services made available by PS:, including but not limited to services accessed, by means of a browser or by other online communication method.

Software and Services are further referred to as "PS: Services".

Security of communication and information

PS: Services provide secure communication service. To effectively achieve secure communication the end user shall acknowledge the following:

- PS: Services provide secure communication between any two units with the Software installed,
- PS: doesn't provide physical security of a unit with installed Software, the end user (You) are obliged to secure the unit from any unauthorised physical access of third person to the unit and secure the unit from misuse and or theft,
- It is your decision whether you will delete delivered messages / information on communication after reading / completion of communication. To prevent security risk from theft or other unauthorised access to the unit with installed Software, we suggest that you as an end user, shall delete any messages / communication / information on communication immediately after delivery, or end (and processing of) communication,
- Device with installed PS: Services keeps logs of last 20 communications,
- All logs of communications are deleted performing a log out,
- We suggest that you shall use only legal and up – to – date software (primarily OS and antivirus software) on the unit with Software installed.

Collection and use of information

PS: collects information on end users of the PS: Services only upon their expressed consent, given by accepting these conditions prior to the provision of e-mail address and/or telephone number to the database of end users of PS: Services. Identity of the end user is processed based on such consent. The sole purpose of processing the identity of the end user is to allow the search of contacts by other end users of the PS: Services. The database of end users is stored on the servers of PS: and/or servers of contractual partners of PS:. Information stored in the database of end users are protected.

PS: does not provide data from the database of end users in any form to any third party except other registered end users of PS: Services..

Personal data protection

By installing, accessing or using the PS: Services, you explicitly consent to collection of personal data and usage terms for collected personal data, that is unlimited (as to the subject, content or person, territory, including (where applicable)) and comprises the transfer of personal data into a country outside of the European Union and/or the European Economic Area or the United States of America.

Only data of natural persons are deemed personal data.

PS: respects your privacy rights and recognizes the importance of protecting any personal data collected.

PS: only collects and uses personal data about you upon provision of such data to PS: by you and only to the extent and under conditions as detailed in this document.

To use PS: Services, you are not obliged to provide any personal data.

However, in case that you, by your own discretion provide PS: with personal data (the only personal data possibly collected is your e-mail address and/or telephone number that may be considered to constitute personal data individually or in combination according to the relevant Slovak law), you agree that PS: may use such data according to terms as detailed in this privacy policy.

Any data that can be deemed personal is stored on secure servers of PS:. PS: will not provide any personal data to any third person, personal data protection is secured in the same way as end user information protection detailed above.

All personal data is collected and used according to provisions of Law on protection of personal data, 122/2013 Coll. of Slovak Republic (further only as "Law on protection of personal data").

Use of personal data is (according to §4 of Law on protection of personal data, 122/2013 Coll.) execution of any operation or sequence of operations with personal data, primarily their acquisition, collection, distribution, recording, organising, reworking or change, search, browsing, reorganising, combination, relocation, use, storage, blocking, liquidation, over the border transfer, provision, making the data accessible or publicised.

PS: uses personal data in the extent provided by the user (telephone number and / or e-mail address), and only for the purpose of search of the end users in database and communication between the end users.

User is obliged to provide PS: only with correct and relevant personal data and is obliged to provide information on any change to the data provided.

PS: uses personal data upon consent of the user under provisions of §11 of Law on protection of personal data, 122/2013 Coll. Consent is given by acceptance of this document.

According to the provisions of §15 of Law on protection of personal data, 122/2013 Coll., the user was informed that the user has right to:

- request confirmation whether there are personal data of user collected and used by the PS:;
- be provided, in generally intelligible form information on use of personal data in the information system to the extent of §15, section 1, letter a) to e) of Law on protection of personal data, 122/2013 Coll.;
- be provided, in generally intelligible form information on source, from which the personal data were gathered;
- be provided, in generally intelligible form information on the extent of used personal data;
- request correction or liquidation of incorrect, partial, out of date personal data on user that are used by PS:;
- request liquidation of personal data, where the purpose of use of such personal data expired;
- liquidation of personal data of the user, that are used, in the event of breach of applicable law;
- request interruption of any use of personal data, where the consent of the user was revoked prior to expiration of the period of consent initially given.

PS:, following the provisions of §17 of Law on protection of personal data,122/2013 Coll , immediately after the end of provisioned use of the personal data, liquidates all the data collected on the user.

All and any further rights and obligations of the user under the Law on protection of personal data,122/2013 Coll are subject to application of provisions of §28 of the said law.
